AI is one of the first technologies that applies to every single person in your organization. Unlocking the value of AI agents requires leaders to question old assumptions and drive cultural change.

In this report, we explore five key AI agent trends shaping business in 2026:

- ✓ Agents for every employee: Empowering individuals to achieve peak productivity.
- ✓ Agents for every workflow: Running your business with grounded agentic systems.
- ✓ Agents for your customers: Delighting customers with concierge-like experiences.
- ✓ Agents for security: Advancing security from alerts to action.
- ✓ Agents for scale: Upskilling talent will be the ultimate driver of business value.
